SECTION SF 30 BLOCK 14 CONTINUATION PAGE

ARTHUR KILL**AMENDMENT NO. 6**

PROJECT NO. DACW51-02-B-0002

TECHNICAL REQUIREMENTS INSTRUCTIONS TO OFFERORS

MAINTENANCE DREDGING AND DISPOSITION OF DREDGED MATERIAL FROM ARTHUR KILL
REACH OF NEW YORK AND NEW JERSEY CHANNELS

TO PROSPECTIVE BIDDERS:

We are in receipt of questions relating to USACE's request for amended proposals for Projects DACW51-02-B-0001 & DACW51-02-B-0002, Maintenance Dredging and Disposition of Dredged Material From Flushing Bay and Creek, Federal Navigation Channel and Maintenance Dredging and Disposition of Dredged Material From Arthur Kill Reach of the New York and New Jersey Channels. The questions submitted and answers are provided below for information only.

Question # 1

'May the bidders amend their technical proposal to incorporate new receiving facilities that have just received permitting?'

In response to question number 1, offerors may amend their technical proposal to incorporate new receiving facilities that have just received permitting as long as all the required submittals associated with the new facility are available within the time given for resubmission. See Technical Requirements, Instructions to Offerors, paragraph V, Required Submittals for guidance on acceptable submittals.

Question #2

'Due to the possible award of the KVK Contract 7, the OENJ Cherokee site may not have sufficient capacity to receive the project. Has a determination been made regarding the award of the above referenced project?'

In response to question number 2, capacity from the proposed disposal facility is to be arranged with the disposal site owner. The Technical Requirements, Instructions to Offerors, paragraph V (2) Availability of Disposal Site, requires that the offeror provide proof of uncommitted Disposal Site capacity adequate for the project. In addition, the letters recently sent from USACE regarding the above referenced proposals requested that you confirm the disposal sites availability for the current project schedule of January 2003 to February 2003.

Information from USACE regarding KVK contracts is not acceptable as proof of uncommitted disposal site capacity. The proof of uncommitted capacity must come from the Disposal Site Owner.

4. Note: Bidders are required to acknowledge receipt of this amendment on the space provided in the back of Form 1442 or by separate letter or telegram prior to the opening of bids. Failure to acknowledge all amendments may cause rejection of bid.
